

Inspiring Angels

Thank you for taking part in 'Inspiring Angels'

- The design for the wings is the same for the whole diocese (as shown here and must be mounted this way up)
- You can make your own of any material suitable to be mounted outside for the season.
- The wings can be decorated to your own design as long as they are the same shape as the 'standard' and mounted in the same way as shown.

Ordering:

- You can order wings which are made out of heavy duty white plastic material. By filling in the form below...
- Paint must be of a type suitable for applying to plastic such as acrylic. We advise you to test it first!
- The 'wings' are waterproof and may be easily drilled for fixing but do this at least 25 mm from the edge. Screws or cable ties may be used; whichever is appropriate to your substrate. Please fix/mount them safely and soundly. If you use screws, it's recommended to use a washer under the screw head to prevent it pulling through..
- They will be supplied you with a laminated QR code sign which should be securely mounted somewhere easily accessible to anyone with a hand-held smartphone.
